Want even more SAT practice? There's an app for that!

- Download the "Daily practice for the New SAT" app from your app store and set up an account.
- The app includes a daily question, as well as an archive of previous questions (go to the menu in the upper left.)
- In the question archive, you can choose from reading, writing, math with calc, or math without calc.
- When doing the daily question, slide the blue question and answer bar up to choose an answer and get hints.
- It tracks your stats, so you can see how your practice is going.

**Keep your PSAT answer sheet, as you will be able to enter those answers at collegereadiness.collegeboard.org in the future for more personalized practice.
